Green for Green

\$3,000 “Green Rebate”
from the State of Delaware for
buying a Green-certified home at Roesville

What is a “Green” home?

- Built with the best technology to optimize your home’s energy, water and resource use
- Independently certified to meet national Green building code standards
- Every home we build at Roesville has the architectural and green-friendly details on the back of this flyer (and more), giving these homes superior lasting quality and performance

What are the benefits of a “Green” home?

- Lower operating costs, including lower energy costs
- Lower maintenance, by using better materials
- Better indoor air quality
- Lower environmental impact during and after the building process
- NEW \$3,000 Rebate from Delaware

How and when do I get the rebate?

1. Buy a home at Roesville
2. Once you receive your non-contingent Mortgage Commitment (or proof of assets, if you’re buying cash), we will submit to the state to reserve your rebate
3. You get a \$3,000 check at settlement, which you may be able to use toward your closing costs, depending on your mortgage provider

This is a first-come, first-served program with limited funds. Act now!
